Our private policy can be found the terms of use are as follows: free trial, if offered, will be abolished when the user buys. iPod 1. and the original iPhone (2007) and 3G do not support Ringtones for iPhone - New Ringtones-New Live Wallpapers-New Wallpapers-Bug fix For a long time I have been looking for a good ringtone app-or how to make a custom ringtone. Each application I found did not meet my needs in any way; but this app is. It's easy to use. The screen is very user-friendly, allowing easy access and great instructions for ringing. In addition, you have a folder for ringtones you have created, so you can access them all the time. Just show you how easy it is. I found a song I really like! So I bought a song for a dollar and less than a minute made a ringtone I now use! At the end of the day, you asked me, I would recommend this app for making ringtones. I love this app because you can just record the songs you want and I love that you can do it! I recommend using this app, I've been trying to find a great ringtone app and this is one for me, as a girl who has tried out ringtones I finally found the app and I'm obsessed with it, I'm not doing a free trial or something I just record the sound I want and then I have a brand new ringtone. Sincerely, Summer Mae Anderson Thank you so much for your awesome feedback! ☺☺☺ I just downloaded. Went to paid versions even though I'm free for a month. I press it and sit and stare at the screen for several minutes before anything shows up. If that happens, I can't get out of it. There's no way to retreat from where you are or back to where you used to be. When you click on the tutorial you are stuck watching the tutorial to the end. There is no way to stop and go back to the main screen. When you reach the main screen... you can stare at your red rotating screen for several more minutes before reloading the options. Sigh. Don't think I approve of this paid version after my free month. I don't think I use it much. I do not have time to wait 5 minutes for the options to download every time I want to use it. My time is money. I get paid \$1.00 a minute for my work. If the creators of this app want to credit me \$1.00 for every minute I spend waiting for it to load ... I'll keep it. At this rate, I would either make a lot of money from them or I could keep this app for free forever. In other words... Don't waste your time. There are others who work and recharge. Ringtones Wallpapers, monthly Ringtones and Live Wallpapers developer byss mobile, has not provided details about their privacy practices and data handling with Apple.
